

## ENVIRONMENTAL GROUP

WASTE IS A TERRIBLE THING TO MIND.

**SCE  
maintains  
an EMR of  
.760**

### Information:

Established in 2000, SCE was founded with the intent to offer safe, cost effective environmental services at the highest level of customer satisfaction. Once created, SCE emerged in the Eastern United States as a full service environmental contracting company.

SCE is a Pennsylvania based environmental contracting company performing remediation, oil & gas services, demolition, abatement waste management, and industrial services both Nationally and Internationally. SCE has completed projects ranging from a \$13.5M complex soil excavation project, to a six-mile pipeline project, to a multi-state UST Program. All SCE projects are done with Safety as Job One.

### Services:

- Demolition
- Soil Excavation
- Disaster Relief Services
- Facility & Laboratory Decommissioning / Decontamination
- Remediation System Installation
- Landfill Services
- Geoprobe Services
- Emergency Response
